

ROLLING DOORS

# SERVICE DOOR

Model ESD10

## THE STANDARD OFFERING THAT'S ANYTHING BUT...

### **FLEXIBILITY**

Each door is built to meet your exact specifications. We offer many options - from powder coated graphics to perforated slats - to help you create a product that's uniquely yours.

### **SECURITY**

Rolling steel doors are significantly more secure than traditional garage or dock doors.

### **DURABILITY**

Our standard Service Door is constructed to withstand daily use and warranted up to 50,000 cycles (more than twice the amount of many competitive brands).

### **PERFORMANCE**

Our doors can be configured to withstand the full range of wind load requirements, including Miami-Dade, Texas Department of Insurance, ANSI/DASMA-108 and more. We can also supply seismic calculations, missile impact ratings and much more.

### **RELIABILITY**

Rugged, commercial-grade construction requires little to no maintenance for the lifetime of the door.

### **MAXIMUM CLEARANCE**

Ideal for areas with limited overhead room, Service Door curtains store in an overhead coil fully supported by the side guides.

**STANDARD COMPONENT MATERIALS AND FINISHES**

**OPERATION**

**Hand-chain, hand crank, push-up and a variety of motor options are available.** All of our rolling products are supported by the guides. There is no additional support required unless hood supports are mandated by a larger opening width.

**OPTIONAL MATERIALS AND FINISHES**

- ▶ Aluminum in mill, clear or color anodized
- ▶ Stainless steel - 300 series in #4 finish
- ▶ SpectraShield® Powder Coating in more than 180 colors

**Brackets, Guides and Bottom Bar**

- ▶ Hot-dip galvanizing on steel components
- ▶ Zinc-enriched, corrosion-resistant powder coating in Gray

**CUSTOM-DESIGNED SOLUTIONS**
